Created for that sense of arrival

At Bewley Homes we pride ourselves on attention to detail. The elevations to each new home have been designed to create an engaging street scene and a true sense of arrival.

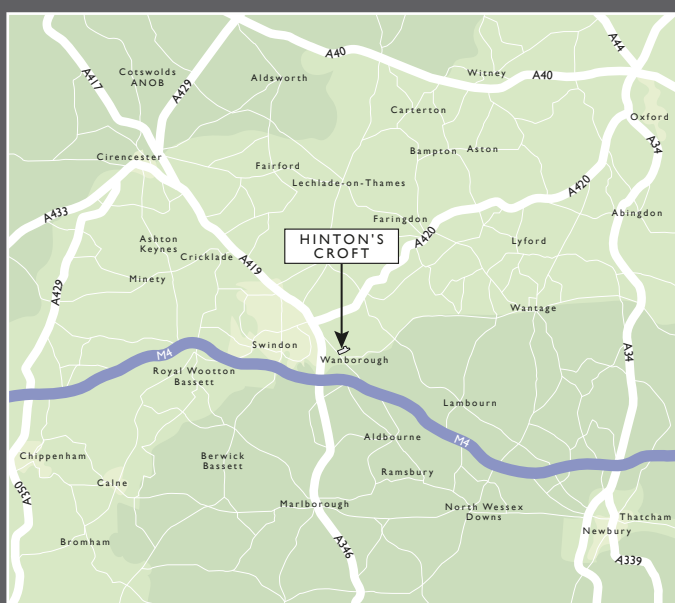

By using a variety of brick colours and treatments, and adding feature details to main elevations, our architects are able to ensure that character is built in from the outset. By achieving this, a new Bewley home can offer the very best of both worlds: the latest in building technology combined with features previously only associated with traditional properties.

Our customers tell us that having considered a second hand home against new, they have been able to satisfy their desire for flexible accommodation and well planned space. They also enjoy all the exterior features they had wished for, but had not expected to find on a brand new development.

From taking the keys to unpacking that last box, there is truly something very special about creating your own unique style throughout a brand new Bewley home.
